Other Important Information*

This Benefit summary of the Aetna Dental Maintenance Organization (DMO[®]) provides information on benefits provided when services are rendered by a participating dentist. In order for a covered person to be eligible for benefits, dental services must be provided by a primary care dentist selected from the network of participating DMO dentists.

Specialty Referrals

1. Under the DMO Dental Plan, services performed by specialists are eligible for coverage only when prescribed by the primary care dentist and authorized by Aetna Dental. Copayments under the DMO plan are based on the dentist's usual and customary fees.

Emergency Dental Care*

If you need emergency dental care for the palliative treatment (pain relieving, stabilizing) of a dental emergency, you are covered 24 hours a day, 7 days a week. You should contact your Primary Care Dentist to receive treatment. If you are unable to contact your PCD, you should contact Member Services for assistance in locating a dentist.

*Refer to your plan documents for details. Subject to state requirements. Out-of-area emergency dental care may be reviewed by our dental consultants to verify appropriateness of treatment.

Some of the Services not covered under the plan are:

1. Those for services or supplies which are covered in whole or in part:

Your Dental Care Plan coverage is subject to the following rules:

Replacement Rule: The replacement of, addition to, or modification of: existing dentures, crowns, casts or processed restorations, removable dentures, fixed bridgework, or other prosthetic services is covered only if one of the following terms is met:

- (a) The replacement or addition of teeth is required to replace one or more teeth extracted after the existing denture or bridgework was installed. Dental Care Plan coverage must have been in force for the covered person when the extraction took place.
- (b) The existing denture, crown, cast or processed restoration, removable denture, bridgework, or other prosthetic service can not be made serviceable; and was installed at least 5 years under the DMO Dental Plan before its replacement
- (c) The existing denture is an immediate temporary one to replace one or more natural teeth extracted while the person is covered and cannot be made permanent; and replacement by a permanent denture is required. The replacement must take place within 12 months from the date of initial installation of the immediate temporary denture.

Alternate Treatment Rule: If more than one service can be used to treat a covered person's dental condition, Aetna may decide to authorize coverage only for a less costly covered service provided that all of the following terms are met:

- (a) The service must be listed on the Dental Care Schedule;
- (b) The service selected must be deemed by the dental profession to be an appropriate method of treatment; and
- (c) The service selected must meet broadly accepted national standards of dental practice.

If treatment is being given by a participating dental provider and the covered person asks for a more costly covered service than that for which coverage is approved; the specific copayment for such service will consist of:

- (a) The copayment for the approved less costly service; plus
- (b) The difference in cost between the approved less costly service and the more costly covered service.

Finding Participating Providers

Consult Aetna Dental's on-line provider directory that can be found at www.aetna.com for the most current provider listings. Participating providers are independent contractors in private practice and are neither employees nor agents of Aetna Dental or its affiliates. The availability of any particular provider cannot be guaranteed and provider network composition is subject to change without notice. Not every provider listed in the directory will be accepting new patients. Although Aetna Dental has identified providers who were not accepting patients in our DMO as known to Aetna Dental at the time the provider directory was created, the status of a provider's practice may have changed. For the most current information, please contact the selected provider or member services at the toll-free number on your ID card or use our Internet based provider directory DocFind[®].

The information in this document is subject to change without notice. In case of a conflict between your plan documents and this information, the plan documents will govern.

In the event of a problem with coverage, members should contact Member Services at the toll-free number on their ID cards for information on how to utilize the grievance procedure when appropriate.

All member care and related decisions are the sole responsibility of participating providers. Aetna Dental does not provide health care services and, therefore, cannot guarantee any results or outcomes.

Dental plans in California are provided or administered by Aetna Life Insurance Company and/or Aetna Dental of California Inc.

This material is for informational purposes only and is neither an offer of coverage nor dental advice. It contains only a partial, general description of plan or program benefits and does not constitute a contract. Aetna does not provide dental services and, therefore, cannot guarantee any results or outcomes. The availability of a plan or program may vary by geographic service area. Certain dental plans are available only for groups of a certain size in accordance with underwriting guidelines. Some benefits are subject to limitations or exclusions. Consult the plan documents (Schedule of Benefits, Certificate/Evidence of Coverage, Booklet, Certificate-booklet, Group Agreement, Group Policy) to determine governing contractual provisions, including procedures, exclusions and limitations relating to your plan.

Aetna Dental Access (SM) Network

Apart from the DMO network and DMO plan of benefits, members under this plan also have access to the Aetna Dental Access Network. This network provides access to providers who participate in the Aetna Dental Access Network and have agreed to charge a negotiated discounted fee. Members can access this network for any service. However, the DMO benefits do not apply. In situations where the Dentist participates in both the Aetna Dental Access Network and the Aetna DMO[®] Dental Maintenance Organization Network, DMO benefits take precedence over all other discounts including discounts through the Aetna Dental Access(SM) network.

Aetna Dental Access Network is not insurance or a benefits plan. It only provides access to discounted fees for dental services obtained from providers who participate in the Aetna Dental Access network. Members are solely responsible for all charges incurred using this access, and are expected to make payment to the provider at the time of treatment.

For the most current information, please contact the selected provider or Aetna Member Services at the toll-free number on your ID card, or use our Internet-based provider directory (DocFind) available at www.aetna.com.

Specific products may not be available on both a self-funded and insured basis. The information in this document is subject to change without notice. In case of a conflict between your plan documents and this information, the plan documents will govern.
